THE PROGRAM

Computer Forensics is often referenced in eDiscovery, but infrequently explained, and rarely demonstrated. Please join Dan Kinney, and the San Diego ESI Forum in welcoming Jim Sevel, whose computer forensics career includes: being one of the founding members of the San Diego FBI Regional Computer Forensics Lab, 11 years conducting criminal investigations for another federal agency's computer forensics division, 12 years conducting civil forensic examinations and the current CEO of San Diego Digital Forensics.

Demonstrations will include forensically imaging and analyzing output from:

- **A laptop with software and hardware collections**
- **Cell Phones with physical and logical collections explained**
- **& capturing email and data from popular cloud file storage services**

Technology demonstrations to include, but are not limited to: Forensic write blockers, Tableau imagers, FTK Imager, EnCase, Cellebrite, and X1 Social Discovery
