CRIMINAL AND CIVIL CASES, STATE AND FEDERAL**

Science Fiction or Necessary Tool: Artificial Intelligence in eDiscovery and Legal Research

**THURSDAY, OCTOBER 18, 2018, 12-1 P.M.
(ARRIVE BY 11:45 FOR SECURITY PURPOSES AND REGISTRATION)**

**Jury Assembly Room 230, Carter/Keep U.S. Courthouse
333 W. Broadway, San Diego**

THE PROGRAM:

In 2018, the term “Artificial Intelligence” or “AI” is referenced by more than Science-Fiction enthusiasts. What exactly does “AI” mean? How does modern AI relate to or drive the tools practitioners and industry leverage to serve clients? Are we ethically obligated to track and understand how these rapidly emerging technologies work? Please join the San Diego ESI Forum for a panel discussion about these and other issues. We will emphasize exploring the legal research and eDiscovery technologies we rely each day, why some platforms are better suited for certain tasks than others, and how each leverages so-called “Artificial Intelligence.”

THE PANELISTS:

Lauren Doucette, RCA, Practice Technology & eDiscovery Project Manager, Sheppard Mullin Richter & Hampton LLP
Christine N. Milliron, RCA, Director of E-Discovery, Robbins Geller Rudman & Dowd, LLP
Anand Upadhye, Vice President of Business Development, Casetext

THE MODERATORS:

Knut Johnson, Law Office of Knut S. Johnson
Charles E.H. Gulley, III, Klinedinst PC
