The Goldilocks Effect in Data Governance

WEDNESDAY, MAY 22, 2024, 12-1 P.M.

(ARRIVE BY 11:45 FOR SECURITY PURPOSES AND REGISTRATION)

Large Jury Assembly Room 250, Carter/Keep U.S. Courthouse
333 W. Broadway, San Diego

THE PROGRAM

“Retain that document forever!” “Don’t keep that data longer than you need it!” “Whose records are these anyway???”

Never in human history has information been more powerful than it is now, and never has governing that information and compliance been more complicated. From longstanding records retention and preservation rules to privacy regulations and data subject deletion requests, navigating the myriad of complex rules and regulations is tricky at best and impossible at worst.

Never fear, however! This panel of experienced information and privacy experts will demonstrate some best practices that will help you strike that perfect balance of not too much and not too little, but just right - the way Goldilocks liked it.

Look forward to seeing you there!

THE PRESENTERS

Justine Phillips, Privacy & Cyber Attorney at Baker McKenzie LLP
Matthew Kregel, Director of Information Retention Counseling at Cooley LLP
Dean Gonsowski, Chief Revenue Officer at Gimmel
