THE PROGRA

Join us to hear directly from thought-leaders developing new technologies to support our legal industry.

THE NEW TECH

Cylance

- Cylance introduces security solutions that leverages deep-learning AI algorithms to support automated threat detection, prevention, forensic investigation, and response capabilities.

Text IQ

- Text IQ applies machine learning techniques to language analysis in conjunction with human interactions. By analyzing documents in relation to the individuals connected to its content and transmission, Text IQ is able to identify and isolate meaningful, sensitive data with unprecedented speed, accuracy, and efficiency.

THE MODERATORS:
